WEATHER OF CONCERN

NORTHERN CALIFORNIA

- High Risk for a High End Very Strong Wind/Low RH Event this afternoon through Monday Morning for portions of West Slopes of the Cascade-Sierra Range to the Coast
- High Risk for Strong Wind/very low RH Event for portions of the W. Slopes of Cascade-Sierra Range, Sac Vly-Foothills, Mid Coast from Clear Lake south and Diablo Mtns midday Tue to Wed am
- A Red Flag Warning is in effect for much of the region from 1100 hours Saturday through 1100 hours Monday. Strong north/northeast winds and very low humidities are likely during this time frame.
- Gusts from 50 to 60 mph are expected across portions of the higher terrain of interior Northwest California, with locally higher gusts possible in the High Wind Watch areas.
- These gusty conditions, combined with a very dry air mass will yield critical fire weather conditions across portions of Trinity, southeast Humboldt, interior Mendocino, and northern Lake counties Saturday night through early on Monday.

SOUTHERN CALIFORNIA

- Potential for erratic fire behavior on existing fires this afternoon as winds turn from light offshore to onshore. Strong offshore winds and very low humidity will cause the large fire threat to become high across most of Southern California Sunday night and Monday.
- Strong Santa Ana winds will continue today with critical fire weather conditions, and locally damaging winds possible.
- Another potentially moderate Santa Ana wind event is possible Sunday and Monday.

WEATHER KEY POINTS

10/26/19 - 11/01/19

Saturday-Monday

- A very critical fire weather event will develop for northern California Saturday evening through Monday morning
 - There is a chance that winds will be strong enough to cause damage in some locations in northern California.
 - **This will likely be the strongest wind storm of the fall season and potentially in the last few years**
 - The strongest winds are expected on Sunday across the North and East Bay areas
 - Winds could gust locally as high as 75 mph over the higher peaks of the North Bay late tonight and into Sunday morning.
 - Strong and gusty winds are also expected in the East Bay Hills and Santa Cruz where gusts up to 60 mph are possible.
 - Across southern California, moderate offshore winds (Santa Anas) will redevelop Sunday night through Monday
 - This weekend wind event will most likely taper off beginning Monday morning, but there is a slight chance this event will extend into Monday night.

Tuesday

- No impacts are expected

Wednesday-Friday

- Across Southern CA, another moderate Santa Ana wind event is expected next Wednesday and Thursday.
- Winds are expected to lighten up but remain offshore next Friday
